A Hotsy Technician will service your machine _____ times per year at regularly scheduled intervals for \$99.00 per visit, regular price \$165.00.

First hour labor included, any additional labor will be billed at current shop rates, plus parts.

If repairs are necessary, we will get authorization to do any additional work or give written estimate.

Note: It is recommended the pump oil is changed after the first 25 hours of operation. After that, replace pump oil every 3 months or 300 hours, whichever comes first.

Any service required in between scheduled calls will be at our current hourly rate for actual time, plus parts. There will be no service call charge. A savings of \$_____ per visit.

The Preventative Maintenance Program requires a minimum of two calls per year.

The Preventative Maintenance Program is subject to an annual review and renewal.

We hereby agree to the Hotsy Preventative Maintenance Program effective: ____/____/____.
